

PTAs: where we are and where we are going

Tuesday, 7 November 2023 11:50 (30 minutes)

By tracking the arrival times of radio pulses from a collection of pulsars in the Milky Way, several pulsar timing array collaborations have found evidence for a background of gravitational waves permeating our galaxy. In this talk, I will present this evidence and discuss possible paths forward to discriminate between astrophysical and cosmological interpretations of this background.

Presenter: MITRIDATE, Andrea (DESY)
